PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence & Machine Learning with hands-on experience in Full Stack Development, Generative AI, Retrieval-Augmented Generation (RAG), NLP, and Computer Vision. Experienced in developing scalable AI-powered web applications using React, FastAPI, Docker, PostgreSQL, Neo4j, and modern LLM APIs. Passionate about building intelligent software that solves real-world problems while combining technical expertise with leadership and teamwork developed through hackathons and five years of NCC service.

TECHNICAL SKILLS

LANGUAGES: Python, Java, C, C++, JavaScript, SQL

FRONTEND: React.js, HTML5, CSS3, Tailwind CSS, Vite

BACKEND: FastAPI, Flask, Node.js, REST APIs

AI / MACHINE LEARNING: TensorFlow, PyTorch, Scikit-learn, , NLP, Computer Vision

DATABASES: PostgreSQL, Neo4j, SQL, Supabase

TOOLS & PLATFORMS: Git, GitHub, Docker, , VS Code

AI APIS: OpenAI API, Gemini API, Groq API, OpenRouter

WORK EXPERIENCE

SKYNICHE TECHNOLOGIES | PALAKKAD, KERALA

Duration: 1 Month

Full Stack Developer Intern (On-site)

- Collaborated with experienced developers on real-world web applications as an on-site Full Stack Developer.
- Developed responsive full-stack applications using React.js, FastAPI, REST APIs, and SQL.
- Implemented authentication systems, CRUD operations, and backend API integrations.
- Participated in debugging, testing, deployment, and code reviews using Git-based workflows.
- Optimized application performance and enhanced user experience across multiple modules.

PROJECTS

1. SITEMIND AI – AI-POWERED WEBSITE CHAT ASSISTANT

Technologies: React, FastAPI, LangChain, FAISS, Docker, OpenAI, Gemini, Groq

- Developed a production-ready Retrieval-Augmented Generation (RAG) platform enabling users to chat with any website via URL input.
- Built intelligent web content extraction, semantic chunking, embeddings, vector search, and conversational memory.
- Integrated OpenAI, Gemini, Groq, and OpenRouter APIs with robust source citations and user authentication.
- Designed a premium SaaS-inspired interface supported by a scalable backend architecture.

2. FINFLOW – AI FINANCIAL FRAUD DETECTION PLATFORM

Technologies: React, FastAPI, PostgreSQL, Neo4j, Docker, Python

- Engineered an AI-powered financial analytics platform for detecting suspicious transactions using anomaly detection and graph relationship analysis.
- Developed interactive dashboards, transaction visualization, and intelligent fraud risk scoring mechanisms.
- Built scalable REST APIs utilizing PostgreSQL, Neo4j, and Docker-based deployment architecture.

3.AI AUDIO TO SIGN LANGUAGE CONVERTER

Technologies: Python, TensorFlow, OpenCV, NLP

- Developed a real-time accessibility solution converting spoken English into animated sign language using speech recognition and NLP techniques.
- Implemented gesture generation and computer vision methodologies to ensure accurate sign animations.
- Optimized inference speed to facilitate real-time communication for hearing-impaired users.

EDUCATION

NEHRU COLLEGE OF ENGINEERING & RESEARCH CENTRE, KERALA 2023 – 2027

B.Tech – Computer Science & Engineering (Artificial Intelligence & Machine Learning)

SREE SANKARA ORIENTAL HIGHER SECONDARY SCHOOL Score: 90%

Higher Secondary – Computer Science

GVHSS THIRUVILWAMALA Score: 95%

Secondary School (Class X)

LEADERSHIP & EXTRACURRICULAR

NATIONAL CADET CORPS (NCC) 2019 – 2024

NCC Cadet – 'C' Certificate Holder

- Successfully completed five years of NCC training and earned the prestigious 'C' Certificate.
- Led and coordinated 150–200 cadets during the Army Attachment Camp, showcasing leadership and organizational abilities.
- Participated in multiple NCC camps, strengthening teamwork, communication, and decision-making through military-style training.

ACHIEVEMENTS

CIDECODE NATIONAL HACKATHON 2026

Hackathon Finalist (Team Delta Force)

- Selected as a Finalist among numerous participating teams after designing and developing "SkillVoice" during a highly competitive 12-hour national hackathon.
- Collaborated within a cross-functional team to rapidly design, build, and present a production-ready AI solution under strict time constraints.
- Demonstrated strong problem-solving, rapid prototyping, and technical presentation skills.

CERTIFICATIONS

- Python Programming — Udemy
- Problem Solving (Basic) — HackerRank
- Cybersecurity Basics — Cisco Networking Academy
- Introduction to Artificial Intelligence — Infosys Springboard

ADDITIONAL INFORMATION

LANGUAGES: English, Malayalam, Hindi, Tamil, Marathi

INTERESTS: Movies & Series, Travelling, Cricket
